Product highlights

Master outlet

Provides power exclusively to the master device.

4 secondary outlets

Flow of power to these outlets is automatically controlled by the master device, conveniently averting stand-by modes for energy savings.

Phone line protection

These connectors accommodate an RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

6 outlets

Converts one outlet into six outlets allowing you to plug in multiple devices from one single AC outlet.

1 always-on outlet

An outlet that is not controlled by the master power switch. Constant power is maintained for devices like rechargers, fax machines, etc.

Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

6 ft power cord

Provides power to the unit which can be 6 feet from the AC outlet.

\$200,000 equipment warranty

Protects your connected equipment for the life of the product.
